

A New Day Dawns In Window Fashion.

Radiant Blinds Enhance Environments with Light Emanating Technology.

All Radiant Blinds Products Include:

- Wireless, user-programmable tilt and brightness control.
- A variety of slat colors and unlimited light colors.

How Radiant Blinds Change Our World:

- They consume less than 1/3rd of the energy of normal light fixtures.
- They bring “sunlight” into otherwise dark areas.
- They may have therapeutic affects for people suffering from SAD.
- They showcase individual style, add color and artistic flare.
- They enhance environments such as:
Hospitals, Media Rooms, Basements, Casinos, Restaurants,
Offices, Nursing Homes, Hotels, Clubs & Private Residences.

How Radiant Blinds Increase the Bottom Line:

- **Light + Fashion:** Radiant Blinds are also considered light fixtures, which opens up a new, lucrative industry in window fashions.
- Radiant Blinds sell themselves. Portable and show-floor models come in an elegant and easy to carry, stained wood carrying case, with all the functions and a complete demonstration mode.
- Radiant Blinds offer clients something new and unprecedented in interior design.

How to Become a Dealer:

- Visit www.radiantblinds.com and **register** to become a dealer.

You will receive a call from our Director of Sales and Marketing, who will send you the RBI Dealer Application.

Once approved, you will receive your Dealer Login and be able to purchase sample kits and process orders.

For more information, call: **Mark Hoiseth,**
